The Johari &
Jimmy Rollins
Center for Animal
Rehabilitation

Experienced Professionals

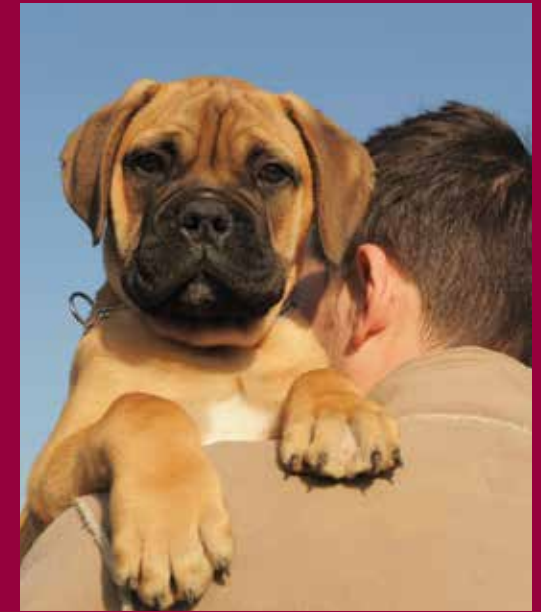

The Johari and Jimmy Rollins Center for Animal Rehabilitation is a state of the art animal rehabilitation service for pets. Offering pets the kinds of advanced modalities typically employed in human rehabilitative medicine, The Rollins Center seeks to establish a 'gold standard' for veterinary rehabilitation and pain management.

A partnership with Philadelphia Phillies All-Star shortstop Jimmy Rollins & his wife, Johari.

Capabilities & Services

Our experienced clinicians offer these services:

- Arthritis & Chronic Pain Management
- Digital Gait Analysis & Lameness Scoring
- Fitness & Conditioning
- Home Exercise Programs
- Hydrotherapy
- Manual Therapy
- Massage Therapy
- Neurologic Rehabilitation
- Neuromuscular Electrical Stimulation
- Orthotics, Prosthetics & Assistive Devices
- Orthopedic Rehabilitation
- Performance & Agility Medicine
- Pre & Post-Operative Therapy
- Range of Motion Therapies
- Therapeutic Exercises
- Therapeutic Laser
- Therapeutic Ultrasound
- Thermotherapy

State-of-the-Art Specialty & 24/7 Emergency Care

Saint Francis Veterinary Center is recognized by the American Animal Hospital (AAHA) as an Accredited Referral practice. Fewer than 1% of approximately 27,000 animal hospitals in North America, including fewer than 7% of standard (Non-Referral) AAHA-accredited practices, achieve this distinction.

In 2013, Saint Francis was recognized with a Certificate of Special Senate Recognition for its "innovative veterinary care and outstanding contributions to the community."

Please visit saintfrancis.org/aaha for all of our AAHA evaluation scores.
